- If someone is brahmin by birth, in astrological terms he might be even Shoodra.
- Varna koota has been allotted one point and one point is given in matching if the Varna of the boy is superior to the girl in caste hierarchy.
- If the varna of girl is superior, it is not considered good and given 0 point.

		Boy			
		Brahmin	Kshatriya	Vaishya	Shoodra

# Vashya Koota

- Vashya means to be in one's control. Ours is male dominated society where it is supposed that the boy will dominate over the girl as husband throughout the life.
- If the boy is superior full two points are given otherwise not.
- The twelve Zodiacs fall into following categories:
  1. **Chatuspad (Animal)** : Pet animal that think of itself. Aries, Taurus, 2<sup>nd</sup> half of Sagittarius and 1<sup>st</sup> half of Capricorn. Among these rashis Leo is considered to be vanchar or wild.
  2. **Dwipad (Human)** : Think for the society and others also. Gemini, Virgo, Libra and first half of Sagittarius and Aquarius.
  3. **Aquatic (Jalachar)** : Remains always restless. Cancer, Pisces and latter half of Capricorn.

- Except Scorpio, every rashi is in the control of Leo or Lion. Scorpio is not in the control of Leo because it lives in burrow or hole.
- Human are considered to control all Chatuspad except Lion.
- Every Vashya has friendship with its own and mitra category and enmity with Shatru and Bhakshya category.
- If there is friendship between the two, then 2 points are allotted.
- If there is enmity then 1 point is allotted.
- If they are Shatru or Bhakshya then 0 points allotted.

Boy						
		Chatuspad	Human	Aquatic	Wild	Keeta
Girl	Chatuspad	2	1	1	½	1
	Human	1	2	½	0	1
	Aquatic	1	½	2	1	1
	Wild	0	0	1	2	0
	Keet	1	0	1	0	2

# Tara Koot

- There are nine Taras which are determined according to the birth nakshatra.
- Compatibility between the boy and the girl is seen taking into account the relationship of their respective taras.
- If Taras of both are favourable to each other then three points are allotted.
- When their Taras are not favourable they get 1.5 points. The reason being both taras are never inauspicious. Usually if one Tara is inauspicious other would definitely be auspicious. Hence min 1.5 points are secured.
- Theoretically if Taras of both boy and girl are inauspicious then they should be given 0 point but practically that never happens.

**All 27 nakshatras have been divided into 3 triads each having 9 nakshatras. Starting from Janma nakshatra, first triad is called Janma Tara. This table is given for someone with Janma nakshatra Ashvini.**

**Some of these Taras are considered inauspicious – Vipat, Pratyari and Vadha.**

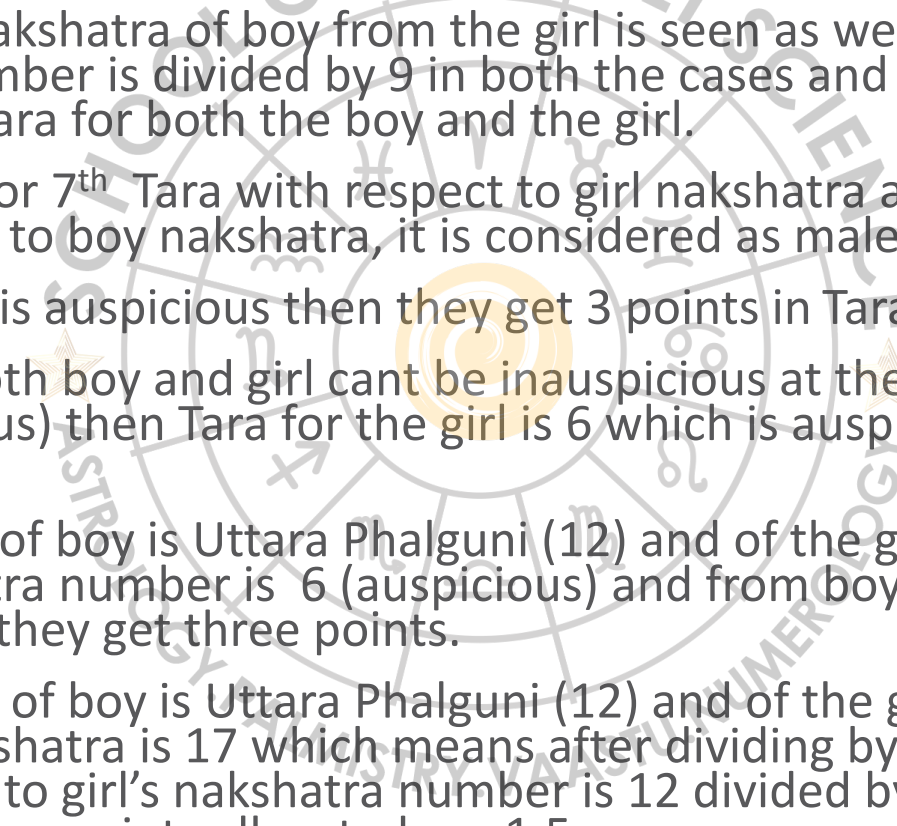

Tara	1 <sup>st</sup> Triad	2 <sup>nd</sup> Triad	3 <sup>rd</sup> Triad

# Tara Koot

- There are nine Taras which are determined according to the birth nakshatra.
- Compatibility between the boy and the girl is seen taking into account the relationship of their respective taras.
- **All 27 nakshatras have been divided into 3 triads each having 9 nakshatras.**
- **These triads have been given names called Taras as shown in table.**
- **Some of these Taras are considered inauspicious – Vipat, Pratyari and Vadha.**

- 
- 
- For Guna Milaan, the Janma Nakshatra of boy from the girl is seen as well as the girl from the boy is calculated and the resultant number is divided by 9 in both the cases and the remainder is considered as the number of Tara for both the boy and the girl.
  - If the Tara of the boy is 3<sup>rd</sup>, 5<sup>th</sup> or 7<sup>th</sup> Tara with respect to girl nakshatra and similarly if Tara of girl is 3<sup>rd</sup>, 5<sup>th</sup> or 7<sup>th</sup> Tara with respect to boy nakshatra, it is considered as malefic or inauspicious Tara.
  - If the Tara of both boy and girl is auspicious then they get 3 points in Tarakoot milaan.
  - It may be noted that Tara of both boy and girl can't be inauspicious at the same time. For example if Tara of the boy is 3 (inauspicious) then Tara for the girl is 6 which is auspicious. In such a case 1.5 points are given.
  - Example 1 : If Janma nakshatra of boy is Uttara Phalguni (12) and of the girl is Rohini (4). In this case, from girl to boy's nakshatra number is 6 (auspicious) and from boy to girl is 20. Divided by 9 remainder is 2 (auspicious). So they get three points.
  - Example 2 : If Janma nakshatra of boy is Uttara Phalguni (12) and of the girl is Dhanishtha (23) then counting from girl to boy's nakshatra is 17 which means after dividing by 9 remainder is 8 which is auspicious tara. Now from boy to girl's nakshatra number is 12 divided by 9 leaves remainder 3 which is inauspicious Tara. Hence points allocated are 1.5.

# Gana Koot

- There are three different types of Gana – Deva, Manushya and Rakshas Gana.
- According to astrology it is excellent if both bride and groom has the same Gana. In this situation there will be a loving and compatible relationship between the couple.
- A marriage is considered fair if one of the couple is a Devgana and the other is Manushya Gana. Astrology says that normally marriage can be fixed between Dev and Manushya Gana.
- But Rakshasa Gana is an inauspicious Gana for these 2 Ganas. It is not considered a good match if a Rakshasa Gana person marries a Deva or Manushya gana person. For the Rakshasa Gana, marriage should preferably be with the person of the same Gana.

		Deva	Manushya	Rakshas

	Rakshasa	0	0	6

# Exceptions and Nullification

- If the janma Nakshatra of the girl is 14<sup>th</sup> or more from the nakshatra of the boy then the dosh does not emerge and gets cancelled.
- If the Rashi lords of both the boy and the girl are either the same or friendly to each other then the Gana dosh gets cancelled.

# Bhakoota

- Bhakoota matching is the second most important component in matching because it has 7 points which is the second highest point.
- Bhakoota matching is done to identify whether the conjugal relation between the boy and the girl will be smooth or there will be frequent fights, tensions and differences of opinion.
- In Bhakoota matching, the comparative study of the signs of the boy and the girl is done to ascertain the quantum of compatibility.
- In Bhakoota milaana, rashi of the boy is compared to that in the girl's horoscope with regard to its relative numerical position and vice-versa such as 2/12 – two-twelve; 6/8 – Six-eight; 5/9 – Five-Nine and 3/11 – three-eleven.
- Total 7 points are allotted if matching is favourable and 0 points if matching is unfavourable; nothing in between.

# Favourable and Unfavourable combinations

Favourable :

- Matching is considered excellent and highly auspicious if the Rashis of the boy and the girl are same (ex Aries – Aries).
- 1/7 or 7/7 (ex Aries-Libra); 3/11 (ex Aries – Gemini or Aries-Aquarius); 4/10 (Aries-Cancer or Aries-Capricorn).

Unfavourable :

- 2/12 or 12/2; 5/9 or 9/5; 6/8 or 8/6

# Exceptions for Bhakoot dosh

- If the lord of Moon signs of male and female is the same, Bhakoot Dosh is considered nullified. For example, 6-8 Bhakoot Dosh is considered nullified in case of Aries-Scorpio and Taurus-Libra combination. Likewise, 12-2 Bhakoot Dosh is considered nullified in case of Capricorn-Aquarius combination.
- If the lords of Moon signs of male and female are friendly towards each other, Bhakoot Dosh is considered nullified. For example, Bhakoot Dosh is considered nullified in case of Aries-Sagittarius and Scorpio-Pisces; since both Jupiter and Mars are friendly towards each other.
- It should be noted that for this condition to meet, lords of both Moon signs should be friendly towards each other. For example, 2-12 Bhakoot Dosh is not considered nullified according to this rule, in case of Leo-Virgo combination. This is due to the fact that Mercury is friendly towards Sun but Sun is neutral towards Mercury. Hence Bhakoot Dosh stands effective in this case.
- It should be noted that even if Bhakoot Dosh is nullified due to exception, 0 out of 7 points is assigned. In this case, the natives don't score for Bhakoot Dosh. However, they may not suffer from malefic effects of Bhakoot Dosh.

# Nadi Koota

- There are three variants of Nadi – Aadya, Madhya and Antya.
- In the matching of Nadi if the Nadi of the boy and girl are different then it is considered to be matching otherwise not.
- If boy has Aadya Nadi and girl has Madhya nadi then 8 points are allotted in ashtakoot milaana.
- If both boy and girl has same nadi then they are allotted 0 points and it is considered as Nadi dosh.
- If nadi dosh is there then marriage is not permissible barring it gets nullified by other principles.
- Nadi Koota is most important component of ashtakoota milaana as it carries maximum points.

# Effects of Nadis

- Aadya, Madhya and Antya Nadis represent Vaat, Pitta and Cough (phlegm) respectively. These three are sources of all diseases, ailments and troubles.
- Pitta changes the food juice into blood.
- Cough greases the joints, bones and other organs.
- Vata keeps the body free from certain ailments.
- The children of a couple belonging to the same nadi have deficiencies like less haemoglobin in blood or lack of concentration in studies or work.
- If both have the same Madhya Nadis or Pitta Nadis there are chances of widowhood or death of the spouse and both have same Antya nadis or cough nadi, death of the children may take place.
- A couple therefore needs to be of different kind of nerves.
- Marriage is strictly prohibited if there is nadi dosh while checking compatability in the horoscope of boy and the girl.

	Antya	8	8	0

# Cancellation of Nadi Dosh

## Cancellation of Nadi Dosh :

1. If both boy and girl have same Janma nakshatra then they will have same nadis. This nadi dosh is nullified if both are born in different pada of the same nakshatra.
2. If both the boy and girl have different Nakshatra and different Rashis but their nadis are same, in such situation Nadi dosh will get cancelled if the rashi lords are the same.
3. If the boy and the girl have different Nakshatra but same rashi, in such situation even if both the boy and the girl same Nadis, the Nadi dosh is cancelled.
4. Nadi Dosh should not be considered if the Janma nakshatras of both the boy and the girl are amongs the folloing Nakshatras – Kritika, Rohini, Mrigashira, Ardra, Pushya, Jyestha, Shravana, Uttara Bhadrapad and Revati.
5. Nadi dosh should not be applicable if the Rashi Lords of both the boy and girl are Mercury , Jupiter or Venus.

# Other matters relating to horoscope matching

- **Mangal Dosh** : Besides Ashtakoot Milan we should be looking at Mangal Dosh while matching horoscope of prospective bride and groom. A native with mangal dosh should get married to a person with similar mangal dosh.
- **Quality of Married life** : For assessing compatibility of a couple we must always look at all 6 houses – 1<sup>st</sup>, 2<sup>nd</sup>, 4<sup>th</sup>, 7<sup>th</sup>, 8<sup>th</sup> and 12<sup>th</sup> house to see what is quality of married life their respective charts are showing. Afflictions by malefic other than Mars also causes disruption in married life.
- **Age** : We should also see the longevity of both boy and girl to ensure there is not too much difference in their longevity.
