Astro Master - Ashtakvarga

# Ashtakvarga

- Our ancient sages (Rishis) have introduced a fine method that can help us find out the benignity and malignity of planets and their influence on the life of mankind. The system is called Ashtakavakga. By this system it is easy to find the good and evil effects of the planets.
- To cast an Ashtakavarga, lines and points are used.
- Prediction of benefic results is expressed by line, whereas that of malefic ones is expressed by Zero. But in South India the benefic results are expressed by points whereas the malefic ones by lines. In this system, both the auspicious and inauspicious results can be forecast either by points or by lines.

# Samudaya or Sarvashtakvarga Chart

Total should be 337

# Analysis of Sarvashtakvarga

- Any house containing 30 or more Rekhas give very good effects.
- Those having 25-30 rekhas are like average results.
- Houses having less than 25 rekhas give bad results.
- If the lagna has more than 25 rekhas, the person's general appearance and other things connected with the lagna are good .

# Results according to Rekhas / Lines

- More the rekhas, better will be the result.
- Max number of rekhas could be 8. Hence 4 rekhas should be there to make a planet neutral – neither malefic nor benefic.
- If number of rekhas are greater than 4 then it is beneficial and benefits increases as number of rekhas increase.

# Rectification of Sarvashtakvarga

Sarvashtak Varga is rectified after it is cast. There are two methods of Shodhan / rectification.

1. Trikone Shodhan
2. Ekadhipatya Shodhan

Trikone Shodhan is done with the help of four trines of the horoscope.

Ekadhipatya Shodhan is done for the planets who have dual lordship. Ekadhipatya Shodhan is not done for Sun and Moon because they own only one sign.

# Trikone Shodhan

There are four trines in the horoscope of a person:

1. Aries, Leo, Sagittarius
2. Taurus, Virgo, Capricorn
3. Gemini, Libra, Aquarius
4. Cancer, Scorpio, Pisces

# Rules for Trikon Shodhan

- The lowest number of Rekha of a sign in Trikon should be subtracted from the rest of the three signs in it and then the result thus obtained should be written.
- If any of the signs in trikone has no Rekha, the rekhas of the rest of the signs will remain the way they are.
- If the number of rekhas of all the three signs are equal, the remainder of all the three will be zero after trikone shodhan

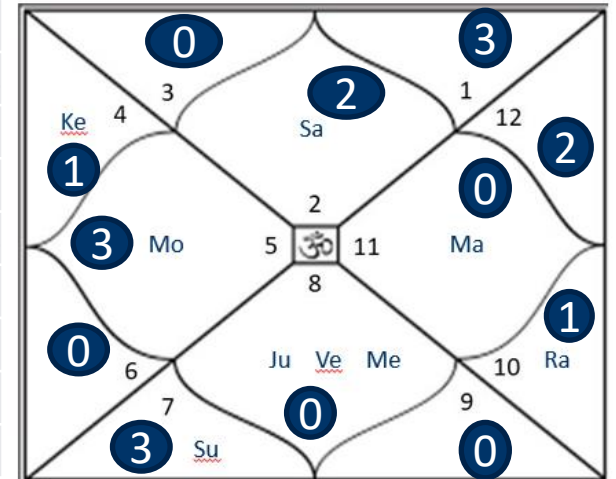

# Rules for Ekadhipatya Shodhan

1. After trikonshodhana is over, Ekadhipatyashodhana is to be carried out.
2. Reduction to be carried out only when there are rekhas in each sign of a planet.
3. If two signs of a planet are without any planets and have got different number of rekhas, the smaller figure should be subtracted from both the signs.
4. If both the signs of a planet are occupied by planets, then no reduction is to be made.
5. If however one of the sign has a planet and when the rekhas in that are less than the other, the smaller figure should be deducted from the other only.
6. In the above case (rule 4), if the house having the planet has more rekhas than the other sign, then remove all the rekhas from the other sign having no planet.
7. If both the houses of a planet are without planets and the rekhas are equal, then remove all the rekhas from both the houses.
8. If rekhas in both the signs of a planet are equal and one house alone is occupied by a planet then remove rekhas in the other house.
9. Rekhas of Leo and Cancer should be retained as it is.

- **Sign and Planet Multiplier** : Ashtakvarga has given following multipliers for respective Signs and Planets.
- **Grah Pinda** : Sum of product of Rekhas of each planet and the respective Planet multiplier is called Grah Pinda
- **Rasi Pinda** : Sum of product of Rekhas of each Sign and the respective Sign multiplier is called Rasi Pinda.
- **Shodhya Pinda** : Sum of Grah Pinda and Rasi Pinda is called Shodhya Pinda.

# Analysis of Suryashtak

Rekha	Results
1	Fear of affliction. Various types of diseases are possible. Hurdle and delay in every job.
2	Creates difference of opinion in the family. The native remains a suspect even when he does a favourable job. Financial hardships are possible.
3	Mental as well as physical problems persists. Teething problems in all endeavours.
4	Mixed results. Ups and Downs are there in native's life. Pleasure and pain come by turn.
5	Cooperation comes effortlessly.
6	Sound health, fame and comfort.
7	Extremely influential and fortunate Native commands great respect and enjoys fame more than expected.
8	Great political status and honor. He enjoys all pleasures of life.

# Results of the Ashtakvarga of Sun

- **General Transit of Sun** : When Sun transits a sign containing many rekhas in his Ashtakvarga the solar month represented by that sign is auspicious for the native specially for matters like marriage etc. The same month brings in good results for a) any new work started b) journey to a distant place c) performance of meritorious and charitable deeds.
- Native should not undertake above deeds when the Sun transits any sign containing less rekhas.
- **Distress time for Father:** The 9<sup>th</sup> house from the sign of the natal Sun denotes father. Therefore the benefic rekhas of that sign in the Sun's Ashtakvarga be multiplied by the total Pinda of the Sun's Ashtakvarga. The product be divided by 27. The transit of Saturn over the Nakshatra denoted by the remainder number (counting it from the Ashwini Nakshatra) will indicate distress for the father of the native. The trinal Nakshatras therefrom (10<sup>th</sup> and 19<sup>th</sup> Nakshatra) if also having the transit of Saturn, will also cause death or intense distress to the father of the native. In the example chart, Sun is posited in Libra. 9<sup>th</sup> from Libra is Gemini. Gemini sign will indicate favourable and unfavourable results for the father of the native. Number of Rekhas for Gemini in Suryashtakvarga are 3. Surya Shodha Pind is 165. Therefore their product is  $165 \times 3 = 495$ . Now 495 divided by 27 gives remainder 9. Therefore whenever Saturn transits through 9<sup>th</sup>, 18<sup>th</sup> and 27<sup>th</sup> Nakshatra, native's father will undergo physical sufferings.
- The benefic rekhas (in this case 3 for Gemini) be multiplied by total Pind of the Sun's ashtakvarga and the product is divided by 12. The sign denoted by the remainder and trinal signs therefrom; when Saturn transits these signs, native's father suffers distress. Should there be dasa of an afflicted planet, it may cause even death of the father. In given example,  $3 \times 165 = 495$ .  $495 / 12$  gives remainder 3. 3<sup>rd</sup> sign is Gemini and its trinal signs are 7 and 11 i.e. Libra and Aquarius. Hence whenever Saturn transits through Gemini, Libra or Aquarius, it would result in distress and miseries for the father of the native.

# Arisht Kaal and yogas related to father

**Arisht Kal of the father :** If Rahu, Saturn or Mars, devoid of any benefic aspects is placed 4<sup>th</sup> from the Sun at the time of the transit of the Saturn over the trinal signs, it will cause death of the father. If Saturn is posited at the 9<sup>th</sup> position from the ascendant or Moon and is conjoined with or aspected by the malefic planets, death of the father could be predicted. However if a favourable dasha is in operation, then death of father should not be predicted.

## Yogas related to Father:

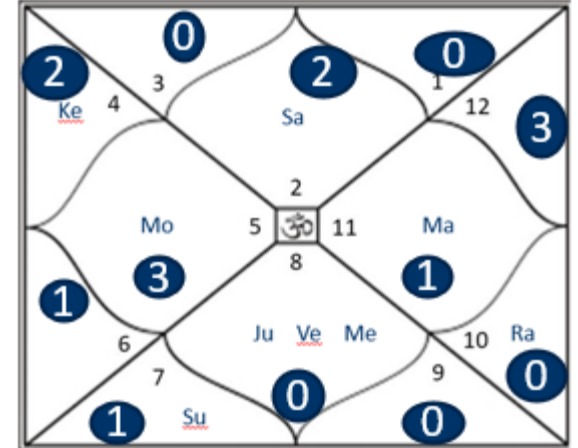

- If the ascendant of the native happens to be the 8<sup>th</sup> sign of his father or the 8<sup>th</sup> lord of the father is posited in the ascendant of the native, that native will take over the left over duties (responsibilities) of the father after the death of his father.
- If the sign of the ascendant or the Moon of the native be the third sign from the Ascendant or the Moon of the father, that native will depend upon (inherit) the wealth of the father.
- If the native takes birth in the sign (ascendant) which is the 10<sup>th</sup> sign in the father's horoscope then the native will acquire the qualities of his father. If the lord of the 10<sup>th</sup> house (of the native) is posited in the ascendant, that native will gain better position than his father.

# Results of the Ashtakvarga of Moon

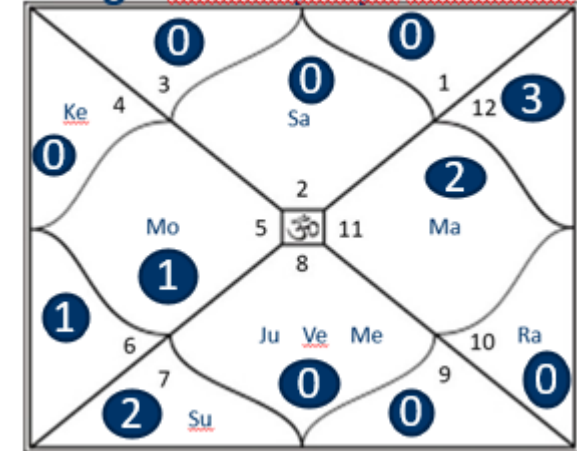

- Which ever sign secures more rekhas, becomes auspicious during the transit of Moon.
- Signs which has less rekhas, auspicious works should be avoided during transit of Moon through those signs.
- One should assess results related to Mother and houses from the 4<sup>th</sup> house from the Moon. Therefore, the number of rekhas in the 4<sup>th</sup> house from the moon be multiplied by the Shodhya Pinda of Moon and divide the product by 27. The death of, or distress to mother may be expected, when Saturn passes in transit through the Nakshatra, denoted by the remainder. Then divide the product by 12. The death of the mother may occur, when Saturn transits the Sign, denoted by the remainder. Distress to mother may be predicted, when Saturn transits the Nakshatras, or Sign in Trikon to Nakshatra and Sign, indicated above.
- In our example, 4<sup>th</sup> place from Moon is Scorpio which has 3 Rekha in Moon ashtakvarga. Therefore  $3 \times 155$  (Shodya Pinda of Moon) = 465. This number divided by 27 gives remainder 6. Therefore when Saturn passes over 6<sup>th</sup>, 15<sup>th</sup> and 24<sup>th</sup> nakshatra then that time will be of distress for mother.
- If the product 465 is divide by 12 then the remainder is 9. Therefore when transiting Saturn passes over Sagittarius, Aries and Leo, mother will have distress or miseries.

# Results of the Ashtakvarga of Mars

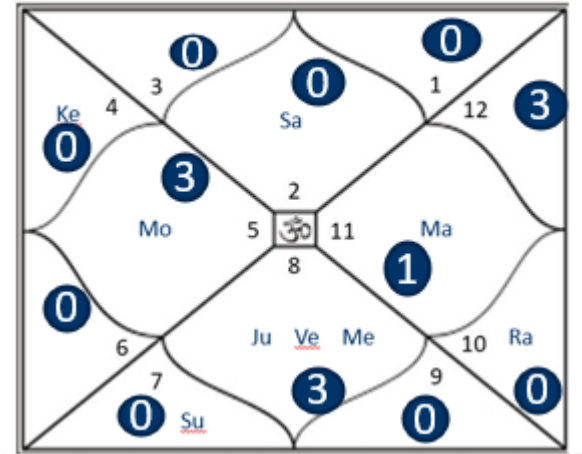

- From the ashtakvarga of Mars, the brothers (co-borns), valour and patience is assessed.
- After Trikon Shodhana, which ever sign has more number, the transit of Mars in that sign will give gains of property and woman (marriage) and affection from the coborns.
- There will be distress to brothers, when Mangal transits a Sign without Rekhas.
- Here also the Shodya Pinda of Mangal should be multiplied by the number of Rekhas in the 3<sup>rd</sup> place from Mars in Mars AshtakaVarg and the product be divided separately by 27 and 12. The remainders will denote the Nakshatra and Sign respectively. The brother will suffer, whenever Saturn transits that Nakshatra; or Sign (or the Trikon Nakshatras, or Sign).
- In our example, Mars is in Aquarius and third place from it will be Aries. In Managalashtak, Aries has 3 rekhas. Therefore Mangal shodhya pinda (118) is to be multiplied by 3 and divided by 27.  $118 \times 3 = 354$ . Dividing 354 by 27 gives remainder 3. Therefore when transiting Mars passes over 3<sup>rd</sup>, 12<sup>th</sup> and 21<sup>st</sup> Nakshatra it is distressful time for coborns.
- Also 354 divided by 12 gives remainder 6. Hence when transiting Mars passes over Virgo, Capricorn and Taurus, it is bad time for Coborns.

- Multiply shodha pinda of Mercury by rekhas of 4<sup>th</sup> sign from Mercury in the ashtakvarga of Mercury. The product is divided separately by 27 and 12. # Results of the Ashtakvarga of Jupiter

- All about knowledge, religious inclinations of the native and son (progeny) is to be ascertained from the 5th house from Jupiter.
- If the Rekhas in the 5th house from Jupiter are larger in number in the Jupiter AshtakaVarg, there will be great happiness in respect of progeny. If the dots are larger in number, the happiness in respect of progeny will be meagre. The number of children are equal to the number of Rekhas in the 5th Bhava (from Guru), provided it is not the Sign of debilitation of Jupiter, or his enemy's Sign. In that case the number of children will be very limited.
- Multiply the Shodhya Pinda of Jupiter by the number of Rekhas in the 5<sup>th</sup> sign from Jupiter in Jupiter AshtakaVarg and divide the product separately by 27 and 12. The remainders will denote the Nakshatr and Sign respectively. Transit of Saturn through that Nakshatra and its Trikon Nakshatras and of that Sign and its Trikon Sign will be inauspicious and will bring distress to children. During that period the knowledge, learning and religious activities of the native will also be adversely affected.
- In our example, Jupiter is in Scorpio. Fifth house from Scorpio is Pisces which has 4 rekhas in Guruashtakvarga. Shodhya pinda of Jupiter is 137. Therefore  $137 \times 4 = 548$ . 548 divided by 27 leaves 8 remainder. Therefore 8<sup>th</sup>, 17<sup>th</sup> and 26<sup>th</sup> nakshatra are the ones, over which when transiting Saturn travels, it causes distress for children.
- Also 548 divided by 12 leaves 8 remainder. There when transiting Saturn passes over Scorpio, Pisces and Cancer, it will bring distress to children.

# Results of the Ashtakvarga of Venus

- The signs which contain more number of Rekhas in the Ashtakvarga of Venus; as and when Venus transits over these signs, it results in acquisition of wealth, woman (marriage) and property will be indicative towards the directions denoted by these signs.
- The possibility of gain of woman (marriage) will be in the direction or country indicated by the 7<sup>th</sup> house from Venus or trinal signs there from.
- The happiness or sorrows related to Woman (wife) be considered from the Rekhas contained in the 7<sup>th</sup> house (sign) from Venus duly multiplied by total Shodha Pinda ; divide the product separately by 27 and 12. The remainders will denote the Nakshatra and Sign respectively. Transit of Saturn through that Nakshatra and its Trikon Nakshatras and of that Sign and its Trikon Sign will be inauspicious and will bring distress to Woman (wife).
- In our example, Venus is in Scorpio and 7<sup>th</sup> house from Venus is Taurus. Venus has 2 Rekha in Taurus in its own ashtakvaraga. Shodhya Pinda of Venus is 354. Therefore  $354 \times 2 = 708$ . Dividing 708 by 27 will leave remainder 6. That means when Venus transits over 6<sup>th</sup>, 15<sup>th</sup> and 24<sup>th</sup> Nakshatra, then it will bring distress time for wife.
- Similarly 708 divided by 12 leaves remainder 0 therefore when transiting Venus passes over Pisces, Cancer and Scorpio, then it will bring distress to wife .

# Results of the Ashtakvarga of Saturn

- The transit of Saturn over the signs having large number of Rekhas in the Saturn Ashtakvarga will be favourable for the native. All those places which do not secure any Rekha in the Ashtakvarga of Saturn and as and when Saturn will pass through these places, it will not do good to the native.
- 8<sup>th</sup> place from Saturn is considered mrityu sthan or place of death. Same place is also denotes longevity. Assessment about longevity should be made from that house through the Ashtakavarg. The disease will be indicative in the year equal to the sum of number of Rekhas in the Ashtakavarg from Ascendant up to Saturn.
- Also total up number of Rekhas from Saturn to Ascendant in the Saturn Ashtakvarga; this year will also be of distress and disease.
- The sum total of both these number of Rekhas will denote the year in which death or death like distress is indicative. If in this year Arishta Dasa is in operation, there can be possibility of death of the native.

# Contemplation of death

## Contemplation of death :

The number of Rekhas in the 8<sup>th</sup> place from Saturn (in the Ashtakvarga of Saturn) be multiplied by the total Shodhya Pinda and the product be divided by 27. The death of the native will take place, when Śani passes in transit through the Nakshatra, denoted by the remainder, or its Trikon Nakshatras.

Again, divide the product by 12. The native will face danger of death, when Śaturn passes in transit through the Sign denoted by the remainder, or through its Trikon Sign.

In our example, Saturn is in Taurus. Eighth place from Saturn is Sagittarius. Number of rekhas in Sagittarius in Shani-ashtakvarga is 1. Shodhya Pinda of Saturn is 152. Therefore 152 divided by 27 leaves 17 as remainder. This means native will have death like distress time when Saturn is transiting over the 17<sup>th</sup>, 26<sup>th</sup> and 8<sup>th</sup> nakshatra.

Also 152 divided by 12 leaves remainder 8. Therefore native experiences death like distress even when transiting Saturn is hovering over Scorpio, Pisces and Cancer.
