Heart Diseases and Astrology

Heart attack and Astrology . Heart attack is now very common. Heart attack can take out lives too, frequently it happens if the flow of oxygen-rich blood to a section of heart muscle suddenly becomes blocked and the heart can't get oxygen. Most heart attacks occur as a result of coronary heart disease. Coronary artery disease is **caused by plaque buildup in the wall of the arteries** that supply blood to the heart (called coronary arteries). Plaque is made up of cholesterol deposits. Plaque buildup causes the inside of the arteries to narrow over time. This process is called atherosclerosis. A less common cause of heart attack is a severe spasm (tightening) of a **coronary artery**. The spasm cuts off blood flow through the artery. Spasms can occur in coronary arteries that aren't affected by atherosclerosis.
